DNACPR Overview

Information

The following quick guide will show how to access the DNACPR forms within Powerchart and show all the new features.

Instruction

1. **Open** a Patient's record within **Powerchart**, click on the **patient's name** in the blue bar.

ZZZTEST, TEP AND DNACPR	
ZZZTEST. TEP AND DNACPR	
Age:72 years	

DNACPR Review

Resuscitation Status Mental Capacity Asse

Treatment Escalation Plan and

+ > 0 9

- 2. This will display the details of the DNACPR status and show when the appropriate documents were created and by whom.
- 3. Click |+| = | and select a document to **Add** or **Modify** from the list
- 4. Some of the forms available are:

Treatment Escalation Plan and Resuscitation Status: Use this form to document a Treatment Escalation Plan and/or a DNACPR decision

DNACPR Review: Use this form to review a previous DNACPR decision. You can confirm that DNACPR is still valid or that it needs to be rescinded

5. To counter sign the **TEP** form: Under **Details** select the **TEP** form and select **Modify**

Details (7) + v Selected Visit G					Modify		
Result/Form Name	Result	Author	Date/Time		Treatment Escalation Plan and Resuscitation		
▼ Results (0)					Status		
 Forms (7) 					Auth (Verified)		
Treatment Escalation Plan and Resuscitation Status	Auth (Verified)	Homer, Malcolm	28 NOV 2022 09:11				

- 6. Select **Counter Sign Now** Mandatory yellow fields will enable you to record your details.
- 7. The form will update the blue banner bar, at the top of the patient's record and will show the current DNACPR status, date, and time.

N.B. All patients must be asked their DNA preferences every time they are medically seen, this includes Inpatients, Outpatients, Day Case admissions.
