

TEP Guide – for CPR

Scenario

A clinician is required to complete a TEP form for the patient with a resuscitation status of "For CPR".

Instruction

- 1. Open the **Patient record**.
- 2. Click on the patient's name in the blue bar to open the Advanced Care Planning window this is the one place to easily access the latest details and 777HUNTER. DNACPR02 update them.
- 3. From the Treatment Escalation and Resus Status component, click on the + button and select Treatment Escalation Plan and Resuscitation Status to open the form.

ZZZHUNTER. DNACPR02 Age:42 years

		Today 11:26		Treatment Escalation Plan and
	✓ Escalation Plan			Resuscitation Status
	Resuscitation	For CPR		Mental Capacity Assessment
	Details (0)		,	+ > 0

- 4. In the escalation plan, complete all fields:
 - What is the resuscitation plan? select "For CPR". •
 - What is the escalation plan? select appropriate plan. •
 - Are there any other specific treatments which would or would not be appropriate • for this patient? – these details will pull through and be visible in the workflow page.
 - Additional Documentation Details.
 - Is a Mental Capacity Assessment necessary? select the appropriate choice. •
